### Concurrent Variance Justification If Required

An applicant requesting consideration of a Concurrent Variance to any provision of the Unified Development Code shall provide written justification that there are extraordinary and exceptional conditions or practical difficulties pertaining to the particular piece of property in question because of its size, shape, topography that are not applicable to other lands or structures in the same district. In making this determination, the City Council shall consider all of the following criteria:

1. A literal interpretation of the provisions of this UDC would effectively deprive the applicant of rights commonly enjoyed by other properties of the zoning district in which this property is located.
2. Granting the requested variance will not confer upon the property of the applicant any special privileges that are denied to other properties of the zoning district in which the property is located.
3. The requested variance will be in harmony with the purpose of the intent of this UDC and will not be injurious to the neighborhood or to the general welfare.
4. The special circumstances are not the result of the actions of the applicant.
5. The variance requested is the minimum variance that will make possible the proposed use of the land, building, or structure.
6. The variance does not permit a use of land, buildings, or structures, which is not permitted by right in the zoning district.
7. The variance does not reduce the lot size below the minimum lot size allowed in the zoning district.
8. The variance does not increase the maximum allocation of sign area or the maximum area of an allowed sign.
