- C. Also, Major Certificates of Appropriateness are advertised on the Historic Preservation Commission agenda, which is made available on the City's website (www.roswellgov.com) at least 7 days before the scheduled public hearing.

13.7.9. How is a Minor Certificate Reviewed?

- A. Once the Zoning Director has determined the application is complete, the Zoning Director will review the application.
- B. External agency review is not required for a Minor Certificate of Appropriateness.
- C. Following review of the application for a Minor Certificate of Appropriateness, the Zoning Director will approve or deny the application. A decision will be made within 10 working days of receiving a complete application. This time period may be extended if both the applicant and the Zoning Director agree on an extension.
- D. The only basis for denial of a Minor Certificate of Appropriateness will be that the application: (1) does not meet all the applicable requirements of this UDC; (2) is incompatible with the originally approved Certificate of Appropriateness; or (3) is inconsistent with the applicable set of design guidelines.
- E. If the Zoning Director denies the Minor Certificate of Appropriateness, the Zoning Director will notify the applicant of the specific provisions that have not been met and offer the applicant the opportunity to make changes to the application, along with notice that the applicant may file for a Major Certificate of Appropriateness to accomplish the requested action if found otherwise to be in compliance with the UDC.
- F. If unsatisfied with the Zoning Director's decision, you may file any appeal as an application for a Major Certificate of Appropriateness with the Historic Preservation Commission.

13.7.10. How is a Major Certificate Reviewed?

A. Review by the Zoning Director

1. Upon determination of a complete application, the Zoning Director will promptly distribute the application for review by internal City departments and external agencies.
2. If after the internal and external review, the Zoning Director finds that the application does not meet all applicable requirements of the UDC, the Zoning Director will notify the applicant of the specific provisions that have not been met and offer the applicant the opportunity to make changes to the application.
3. If after the internal and external review, the Zoning Director finds that the application meets all applicable requirements of the UDC, the application will be certified as complying with all applicable requirements of the UDC and then scheduled for the next available Historic Preservation Commission public hearing.
4. Upon certification by the Zoning Director that the application complies with applicable requirements of the UDC, no changes to the application are permitted prior to the Historic Preservation Commission public hearing.

B. Review by the Historic Preservation Commission

1. The Historic Preservation Commission must approve or reject an application for a Major Certificate of Appropriateness within 45 calendar days after the filing of a complete and compliant application.
2. Failure of the Historic Preservation Commission to act within the 45-day period constitutes approval. This time period may be extended if both the applicant and the Historic Preservation Commission agree on an extension.
3. The Historic Preservation Commission will approve, with or without conditions, the application and issue a Certificate of Appropriateness if it finds that the proposed material change in appearance would not have a substantial adverse effect on the aesthetic, historical or architectural significance and value of the historic property or the -HOD, and

if the Historic Preservation Commission finds the application is consistent with the criteria in Sec. 13.7.12.

4. The Historic Preservation Commission will deny an application for a Certificate of Appropriateness if it finds that a proposed material change would be detrimental to the interests of the -HOD and the public and is inconsistent with the criteria in Sec. 13.7.12.
5. In acting on a Certificate of Appropriateness, the Historic Preservation Commission cannot reconfigure the design of a development that received prior approval by the City Council as a binding site plan, nor does the Historic Preservation Commission have authority to reconfigure site designs or change tree protection requirements in a manner inconsistent with the tree protection plan approved by the Arborist.

13.7.11. What if an Application is for Demolition?

- A. In any case involving the demolition or partial demolition of a structure, before granting approval, the Historic Preservation Commission may call on the Building Official to provide a report on the state of repair and structural stability of the structure under consideration.
- B. Where, in the opinion of the Historic Preservation Commission, a proposed demolition or alteration of any building or structure would be detrimental to the interest of the -HOD, the Commission will take steps to ascertain what the City Council can do to preserve the building, including consultation with interested private civic groups, interested private citizens, and other public boards or agencies.
- C. The Historic Preservation Commission may investigate the use of the power of eminent domain when the preservation of a given building is clearly in the interest of the general welfare of the community and of certain historic and architectural significance.

- D. The Historic Preservation Commission will either disapprove the application or, if within the 45-day time limitation, delay action on the application and make such recommendations as deemed appropriate to the City Council.
- E. Where authorized by the City Council, in cases where it is reasonably necessary or appropriate for the preservation of a unique historic property, the Historic Preservation Commission may enter into negotiations with the owner for the acquisition by gift, purchase, exchange or otherwise, of the property or any interest in the property.
- F. The Historic Preservation Commission or the City Council on appeal must consider any or all of the following criteria in determining whether or not to grant a permit to move, remove, capstate or demolish in whole or in part a building or structure within the -HOD.
 - 1. Is the building or structure of such architectural or historical interest that its moving, removing, capsulating or razing would be to the detriment of the public interest?
 - 2. Is the building or structure of such interest that it could be made into an historic shrine?
 - 3. Is the building or structure of such old and unusual or uncommon design, texture and material that it could not be reproduced or be reproduced only with great difficulty?
 - 4. Would retention of the building or structure help preserve and protect an historic place or area of historic interest in the city?
 - 5. Would retention of the building or structure promote the general welfare by maintaining and increasing real estate values, generating business, creating new positions, attracting tourists, students, writers, historians, artists and artisans, attracting new residents, encouraging study and interest in American history, stimulating interest and study in architecture and design, educating citizens in American culture and heritage and making the city a more attractive and desirable place in which to live?

13.7.12. What Approval Criteria Are Used?

When reviewing or approving a Major Certificate of Appropriateness, the Historic Preservation Commission considers the following.

- A. The historic, architectural and aesthetic features of any existing structure, its use, and its importance to the City. The Historic Preservation Commission will, in making such judgments, consider the results of any available historic properties and structures surveys or will otherwise attempt to discern the structure's historic importance.
- B. The nature and character of the surrounding areas and the consistency of the proposed application with the nature and character.
- C. The general design, the character and appropriateness of design, scale of buildings, arrangement, texture and materials of the structure in question and the relation of the elements to similar features of structures in the surrounding area.
- D. The Historic Preservation Commission will consider the extent to which the proposed action is consistent with -HOD guidelines or other applicable design guidelines. Among other grounds for considering a design inappropriate are the following defects:
 - 1. Character foreign to the area;
 - 2. Arresting and spectacular effects;
 - 3. Violent contrasts of material;
 - 4. A multiplicity or incongruity of details resulting in a restless and disturbing appearance; and
 - 5. The absence of unity and coherence in composition not in consonance with the density and character of the present structure or surrounding area.
- E. In making its final decision regarding an application, the Historic Preservation Commission should consider and adhere to previous decisions made by the Historic Preservation Commission in the same matter, unless new evidence presented requires a different result.

13.7.13. What if I Need Revisions?

After the issuance of a Certificate of Appropriateness, no material change in the appearance of a historic property or of a structure, site or work of art within the -HOD can be made or permitted, unless and until all requirements of this Article are met.

13.7.14. How Long is a Certificate Valid?

- A. Approval of a Certificate of Appropriateness will expire 1 year after the date of approval, unless the applicant has filed a complete application for a Land Disturbance Permit or Building Permit.
- B. Extension of Historic Preservation Commission approval shall be reviewed by the Historic Preservation Commission and be limited to two extensions.

13.7.15. What if a Certificate is Denied?

If unsatisfied with the decision of the Historic Preservation Commission, you may file an appeal with the City Council within 30 calendar days of the decision. The City Council has to make a decision within 30 calendar days from the date of the public hearing on the appeal. This time period may be extended if both the applicant and the City Council agree on an extension. Decisions will be made based on the record presented to the Historic Preservation Commission. On appeal, Mayor & Council will give deference to the Historical Preservation Commission's decision, if the decision is based upon the factors set out in Sec. 13.7.12 and upon the UDC guidelines applicable to the case. If the decision does not reflect application of the factors set out in Sec. 13.7.12 and upon the UDC guidelines applicable to the case, Mayor and Council shall use those factors and guidelines in making its decision on appeal.

- B. A traffic impact analysis is not required when the application is initiated by the City of Roswell.
- C. An application may be exempted from the traffic impact analysis requirement by the Transportation Director if a prior traffic impact analysis for the subject property has been submitted to the City and the proposed development is substantially similar to that for which the prior traffic impact analysis was conducted.

- A. The Zoning Director will transmit the traffic impact analysis to the Transportation Director, who may at their discretion submit copies to applicable review agencies, which may include the Georgia Department of Transportation, the Georgia Regional Transportation Authority, adjacent local jurisdictions and the Atlanta Regional Commission.
- B. The conclusions presented in the traffic impact analysis must be consistent with and supported by the data, calculations and analyses in the report. In the event that a nonconforming structure devoted to a conforming residential or civic use is damaged or partially destroyed by exercise of eminent domain, riot, fire, accident, explosion, flood, lightning, wind or other calamity or natural cause, such structure may be restored within the existing footprint and to the condition existing immediately before the damage or destruction.
 - 2. In the event that a nonconforming structure devoted to a conforming non-residential use is damaged or partially destroyed by exercise of eminent domain, riot, fire, accident, explosion, flood, lightning, wind or other calamity or natural cause to the extent of 50% of the value of the structure prior to the damage or destruction, such structure may only be restored in conformance with this UDC, unless a variance is granted by the Board of Zoning Appeals.

13.13.2. Nonconforming Use

- A. **Defined.** Any use of land, building or structure that does not conform to the use regulations of this UDC, but which was lawfully existing (conforming) on or before the effective date of this UDC or its amendment.
- B. **Continuance.** A nonconforming use may be continued, subject to the requirements of this Section.

- C. **Proof of Lawful Establishment.** It is the responsibility of the owner of a nonconforming use to prove to the Zoning Director that the use was lawfully established and existed on the effective date of adoption or amendment of this UDC.
- D. **Change in Use.** A nonconforming use may not be changed to another nonconforming use. A change in tenancy or ownership is not considered a change to another nonconforming use, provided that the use itself remains unchanged.
- E. **Discontinuance.** A nonconforming use may not be re-established after discontinuance for 90 days. Vacancy or non-use of the building, regardless of the intent of the owner or tenant, constitutes discontinuance under this provision. If a business registration is required for the nonconforming use, and the business registration has lapsed in excess of 90 days, the lapse of business registration will constitute discontinuance.
- F. **Expansion.** A nonconforming use may not be expanded, enlarged or extended, in land area or in floor space or volume of space in a building or structure, except for a use allowed within the applicable zoning district.
- G. **Repair.** A nonconforming use may not be rebuilt, altered or repaired after damage exceeding 50 percent of its replacement cost at the time of damage, as determined by the building inspector, except for a use that conforms with the applicable zoning district, and provided any rebuilding, alteration or repair is completed within one year of such damage.

13.13.3. Nonconforming Lot of Record

- A. **Defined.** A lot that does not conform to the lot requirements of the applicable zoning district, but which was a conforming lot of record prior to the effective date of this UDC or its amendment.
- B. **Use as Building Site.** A nonconforming lot of record may be used as a building site, provided that the all other dimensional requirements of the applicable zoning district are met or a variance is obtained from the Zoning Board of Appeals. Where applicable, the nonconforming lot of record must meet all current requirements of the Fulton County Health Department.

13.13.4. Nonconforming Build-to Requirement

A. **Additions.** When an existing building is being expanded and the building doesn't meet the build-to requirement, the following provisions apply.

Front: Addition. Any addition to the front must be placed in the build-to zone. The addition does not have to meet the build-to percentage for the lot.

Rear: Addition. Rear additions are allowed because the addition does not increase the degree of the nonconformity.

Side: Addition. Side additions are not allowed because the extension increases the width of the building not located in the build-to zone.

B. **New Buildings.** Where a new building is being constructed on a lot or site with an existing building on it that doesn't meet the build-to requirement, the following provisions apply.

Front: New Building. All new buildings must be placed in the build-to zone until the build-to percentage for the lot has been met.

Rear: New Building. New buildings located outside of the build-to zone are not allowed until the build-to percentage for the lot has been met.

Side: New Building. New buildings located outside of the build-to zone are not allowed until the build-to percentage for the lot has been met.

- C. **Replacement Buildings.** New buildings located outside of the build-to zone are allowed to replace an existing building. Where the replacement building has the same or a similar footprint, it must be approved by the Design Review Board. Where the replacement building footprint is increased, it must be approved by the Mayor and City Council.

Sec. 13.14. Enforcement and Penalties

13.14.1. Enforcement Authority

- B. **Engineering Director.** The Engineering Director has primary enforcement authority over Sec. 11.2., Sec. 11.5., Sec. 12.1., Sec. 12.2., Sec. 12.3., Sec. 12.4. and Sec. 12.6.
- C. **Transportation Director.** The Transportation Director has primary enforcement authority over Sec. 11.3. and Sec. 11.4.
- D. **Public Works Director.** The Public Works Director has primary enforcement authority over Sec. 12.5. and Sec. 12.7.

13.14.2. Violation

- A. Any action or inaction that violates the provisions of this UDC, the requirements of an approved stormwater management plan, or any permit issued subject to this UDC may be subject to an enforcement action.
- B. If any person commences any land-disturbing activity requiring a Land Disturbance Permit without first obtaining a permit, they will be deemed in violation of this UDC and, in addition to other penalties, are subject to penalties for violation as specified in this UDC.

13.14.3. Notice of Violation

- A. If the City determines that an applicant or other responsible person has failed to comply with the terms and conditions of a permit, an approved stormwater management plan or the provisions of this UDC, it must issue a written notice of violation to the applicant or other responsible person. Where a person is engaged in activity covered by this UDC without having first secured a permit for that activity, the notice of violation will be served on the owner or the responsible person in charge of the activity being conducted on the site.
- B. The notice of violation must contain:
 - 1. The name and address of the owner or the applicant or the responsible person;

- 2. The address or other description of the site upon which the violation is occurring;
 - 3. A statement specifying the nature of the violation;
 - 4. A description of the remedial measures necessary to bring the action or inaction into compliance with the permit, the stormwater management plan or this UDC and the date for the completion of such remedial action;
 - 5. A statement of the penalty or penalties that may be assessed against the person to whom the notice of violation is directed; and
- C. A statement that the determination of violation may be appealed to the City by filing a written notice of appeal within 30 days after the notice of violation (except that in the event the violation constitutes an immediate danger to public health or public safety, 24 hours' notice will be sufficient).

13.14.4. Remedies and Penalties

In addition to other penalties and withholding of permits as may be specifically provided for elsewhere in this UDC, penalties for violating this UDC are provided in Section 1.1.3 of the City Code. Where a violation of this UDC exists with respect to the use of any building, structure, or land, the City may employ the following remedies and penalties.

- A. **Citation.** If the violation is by a tenant, person, corporation, firm or other entity who is not the owner of record of the building, structure or land, issue a citation for the violation of the City Code to that person or entity. In addition, the City may provide written notice, either personally or by certified mail, to the owner of record of such building, structure or land. Notice must contain a description of the violation and a 30-day period within which to abate or correct the violation. If the owner of record does not bring the use of the building, structure or land into compliance within 30 days, the owner shall be cited for violation of the City Code. Each day any violation continues shall constitute a separate offense.
- B. **Bond Forfeiture.** If, through inspection, it is determined that a person has failed to comply with an approved plan, a written notice to comply must be served upon that person. The notice must set forth the measures necessary to achieve compliance with the plan and state the time within which such measures must be

completed. If the person fails to comply within the time specified, that person will be deemed in violation of this Section and, in addition to other penalties, will be deemed to have forfeited their performance bond, if required to post one. The local issuing authority may call the bond or any part of the bond to be forfeited and may use the proceeds to hire a contractor to bring the site into compliance.

- C. **Withhold Permits and Licenses.** If the violation is by the owner of record of the building, structure or land, or his agent, assign, employee or representative, in addition to other remedies available, the City may refuse or deny all City permits, licenses, certificates or applications to that owner or his agents until the violation is abated or corrected.
- D. **Withhold Utility Service.** The City may, in addition to other remedies, notify the Building Inspector of the violation and direct, require, or encourage that public utility service be withheld until the structure or premises is no longer in violation of this UDC.
- E. **Withhold Certificate of Occupancy.** The City may refuse to issue a certificate of occupancy for the building or other improvements constructed or being constructed on the site until the applicant or other responsible person has taken the remedial measures set forth in the notice of violation or has otherwise cured the violations described in the notice.
- F. **Suspension, Revocation or Modification of Permit.** The City may suspend, revoke or modify any permit authorized by this UDC. A suspended, revoked or modified permit may be reinstated after the applicant or other responsible person has taken the remedial measures set forth in the notice of violation or has otherwise cured the violations described in the notice, provided the permit may be reinstated upon such conditions as the City may deem necessary to enable the applicant or other responsible person to take the necessary remedial measures to cure such violations.
- G. **Monetary Penalties.** Any person who violates any provision of this UDC, or any permit condition or limitation established pursuant to this UDC, or who negligently or intentionally fails or refuses to comply with any final or emergency order of the City issued as provided in this Section will be liable for a fine not to exceed \$2,000 per day. For the purpose of enforcing

the provisions of this Section, the municipal courts is authorized to impose a penalty not to exceed \$2,000 for each violation. Notwithstanding any limitation of law as to penalties which can be assessed for violations of City ordinances, any magistrate court or any other court of competent jurisdiction trying cases brought as violations of this UDC under City ordinances approved under this Section will be authorized to impose penalties for such violations not to exceed \$2,000 for each violation. Each day during which violation or failure or refusal to comply continues is a separate violation.
