

Holcomb Bridge Road Interchange

Project Manager | Rob Dell Ross, P.E. | Senior Transportation Engineer

PROJECT OVERVIEW

When TSPLOST was initially passed in 2016, the funding for this project was allocated for the design of the interchange. Potential future improvements may include reconstruction of bridges, ramps, or other operational projects in the area in coordination with GDOT. In 2019, the Roswell Mayor and Council elected to enter a formal partnership with GDOT for the reconstruction of the interchange as part of the MMIP (Major Mobility Improvement Program) GA-400 Express Lanes Project currently being designed. As part of this agreement, the City of Roswell has committed \$15 million towards the reconstruction of the interchange.
