

# Safety Improvements & Maintenance

*Examples of similar projects.*

**Total Estimated Cost:**  
\$6,956,422

**Roswell's Share of Cost:**  
\$6,956,422

## **TIER: II**

Funding available if TSPLOST funds collected are greater than 85% of anticipated revenue, or \$93 million.

## **PROJECT OVERVIEW**

This program consists of smaller local projects that address general safety improvements, such as replacement of obsolete guardrails, site distance changes, or minor intersection improvements. This funding could also be used to resurface, rehabilitate, or reconstruct existing roads or to replace weight-restricted bridges and functionally obsolete bridges, such as Willeo Road over Willeo Creek on the Cobb County line.

For more information and an interactive map of all the projects, visit [roswellgov.com/tsplost](http://roswellgov.com/tsplost).
