OFFEROR'S RFP CHECKLIST

10 Critical Things to Keep in Mind When Responding to an RFP for the City of Roswell

1. _____ Read the entire document. Note critical items such as: supplies/services required; submittal dates; number of copies required for submittal; contract requirements (e.g. bonding and insurance requirements); etc.
2. _____ Note the Buyer's name, address, phone numbers and e-mail address. This is the only person you are allowed to communicate with regarding the RFP and is an excellent source of information.
3. _____ Attend the pre-proposal conference if one is offered. These conferences provide an opportunity to ask clarifying questions, obtain a better understanding of the project, or to notify the City of any ambiguities, inconsistencies, or errors in the RFP. This conference may or may not be mandatory. This determination will be noted in the Schedule of Events on the front page of the RFP.
4. _____ Take advantage of the "question and answer" period. Submit your questions to the Buyer via the online [form](#) by the due date listed in the Schedule of Events and view the answers given in the formal "addenda" issued for the RFP. All addenda issued for an RFP are posted on the Georgia Procurement Registry and will include all questions asked and answered concerning the RFP.
5. _____ Follow the format required in the RFP when preparing your response. Provide point-by-point responses to all sections in a clear and concise manner.
6. _____ Provide complete answers/descriptions. Read and answer all questions and requirements. Don't assume the City will know what your company's capabilities are or what items/services you can provide, even if you have previously contracted with the City. The Proposals are evaluated based solely on the information and materials provided in your response.
7. _____ Use the forms provided, e.g. cover page, standard forms, etc.
8. _____ Check the Georgia Procurement Registry for RFP addenda. Before submitting your response, check the Georgia Procurement Registry to see whether any addenda were issued for the RFP. If so, you must sign each addendum issued along with your RFP response.
9. _____ Review the RFP document again to make sure that you have addressed all requirements. Your original response and the requested copies must be identical and complete. The copies are provided to the Evaluation Committee members and will be used to score your proposal.
10. _____ Submit your Proposal on time. Note all the dates and times listed in the Schedule of Events and within the document, and be sure to submit all required items on time. Late proposal responses will not be accepted.

This checklist is provided for assistance only and should not be submitted with Offeror's Proposal.

Such a determination may be made at any time during the evaluation process and through negotiation if information surfaces that would result in a determination of non-responsibility. If an Offeror is found non-responsible, the determination must be in writing and made a part of the procurement file.

2.3.6 Post submission activities

After receipt of all Proposals and prior to the determination of the award, the City of Roswell may initiate discussions with one or more Offerors should clarification or negotiation be necessary. Offerors may also be required to make an oral presentation and/or product demonstration to clarify their RFP response or to further define their offer. 3 SCOPE OF PROJECT/SPECIFICATIONS

3.1 Introduction

The City of Roswell ("City") is soliciting Requests for Proposals ("RFP") from firms with experience in multimodal transportation planning and engineering for the development of a comprehensive Bicycle, Pedestrian, and Trail Plan. The project focus will be to develop a city-wide plan that provides both a guide for future investment and policy as well as a prioritized list of feasible and cost-effective projects. The successful Proposer(s) will have experience with and knowledge of the various technical aspects of the following:

1. Pedestrian facility planning and design;
2. Bicycle facility planning and design;
3. Recreational and transportation trail planning and design;
4. Public involvement techniques and applications;
5. Data analysis, synthesis, and documentation;
6. Policy and ordinance development;
7. Geographic Information System (GIS) analysis (City will provide available GIS data);
8. Development of cost estimates and funding scenarios; and
9. Current state of the practice as it relates to multimodal system design and development.

3.2 Background

The City wishes to develop a comprehensive citywide Bicycle and Pedestrian Master Plan which creates and maintains a safe and efficient bicycle and pedestrian network for the traveling public. The City of Roswell was the first city in Georgia to be designated as a Bike Friendly Community (Bronze-level) by the League of American Bicyclists in 2008, and was re-designated in 2013, and again in 2017 due to

our city's strong focus on bicycling. The City is also interested in becoming a Walk Friendly Community in the near future. The City wants to continue to build on our recent progress, but concentrate on future needs and opportunities to better integrate with all modes of our transportation network. Our bicycle and pedestrian network needs to focus on livability while considering the abilities of all users. This study must examine feasibility and constructability in the planning of future investments into our bicycle and pedestrian network and other transportation assets.

3.3 Project Manager for City of Roswell

The successful Offeror will report to the Department of Transportation Director (or designee). Successful Offerors agree to take direction from the project manager and to make all project documentation available upon request. The project manager shall have sole discretion as to the acceptability of all work.

3.4 No limit to competition

No specification implied or expressed is intended to limit competition. The specifications below are intended as a guide for the goods and services on which vendors are to submit a Proposal. These requirements and other specifications are not designed to prevent any vendor from submitting a Proposal. All equipment should comply with the requirements within a generally acceptable range.

3.5 Scope of Work and Overview

This study should provide a roadmap on where we as a City are and where we need to be in regards to bicycle and pedestrian planning to prepare for the next ten to twenty years. The City has already made great strides to enhance our transportation network through funding, programs, and policy. However, this study should review what has been done to this point and look for new opportunities on how to improve our practices over the next planning horizon timeframe.

Tentative Study Goals:

- Achieve Silver or higher Bicycle Friendly Community Status by League of American Bicyclist
- Achieve Walk Friend Community designation
- Increase number of sidewalk and bicycle lanes miles in city by 10% within twenty years
- Reduce the number of bicycle and pedestrian crashes by half within ten years
- Balance short/mid/long needs and goals with reasonable financial limitations

3.5.1 Overall Goals and Objective

At the end of this planning process the City desires a short and long term bicycle, pedestrian, and trails master plan to guide the overall direction of the City as it relates to these specific forms of transportation, including how we interact with citizens affected by and concerned with this topic, and guidance to allocate funding to related programs.

3.5.2 Experience and Qualifications

A Certification from the American Institute of Certified Planners (AICP) is required, along with experience in: Transportation Planning, Traffic Operations, and Engineering. More specifically, we want Experience and Certifications that fit with the overall project plan (as put together by the proposer), and that, in the opinion of the proposer, pull together the best set of skills to accomplish the overall goals of the project.

3.5.3 Minimum Elements

The following elements (draft and final versions), at a minimum, will be required, and fee proposals should reflect the following:

- Project Management Plan
- Public Involvement Plan
 - Special notes on required meetings:

3.6 Compliance

Transportation Department designee will meet with Consultant monthly or as needed to discuss milestones and deliverables. The Consultant is expected to conduct internal quality control methods prior to submitting any deliverables ahead of prescribed deadlines. City staff will review draft and final materials to ensure quality standards are timeline milestones are met.

- VI. Upcoming Tasks

3.6.2 Special Grant Requirements / Reserved

3.6.3 Project Deliverables

Fifteen (15) hard, bound, color copies of the final Bike/Ped Plan are to be delivered for final payment. Thirty (30) hard, bound, color copies of the executive summary are to be delivered for final payment. Additional deliverables can be single (1) hard copy with supplemental electronic copies.

- a. Deliverables as required in section 3.5.3
- b. [Additional Deliverables as required by proposed consultant approach] (see Contract Statement of Work)

3.6.4 Project Timeline

We anticipate starting the project at the earliest availability following the procurement process. The City desires to have a contract kickoff meeting in early 2019. The remaining project timeline will be based on the consultant proposed approach to the problem, along with input from City staff, and will be detailed in the Statement of Work.

3.6.5 Project Budget

The current project Budget is \$150,000-200,000. The top of this range will serve as the “upset” limit for proposed project costs. If Consultant Project Plans exceed this limit, based on the consultant approach or items in addition to minimal elements (Section 3.5.3), the consultant should provide a prioritized list of elements that can be eliminated from the plan development process to bring the project within budget.
