

# POLLINATOR PATROL

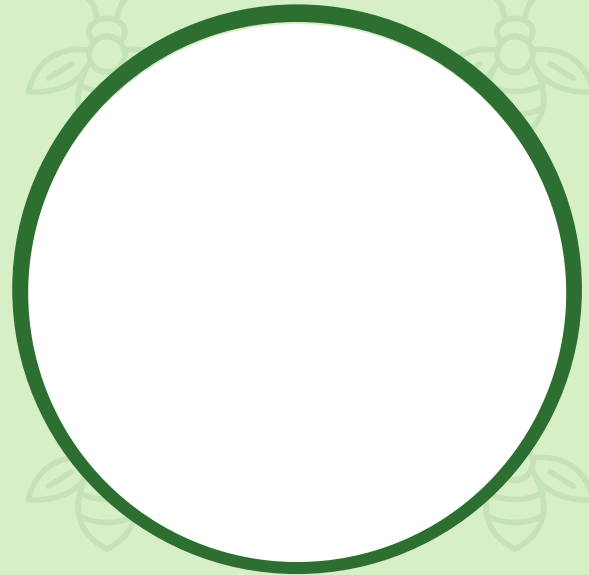

MONITOR POLLINATORS WHERE YOU LIVE!

MATERIALS: POLLINATOR PATROL ACTIVITY PAGE, SOMETHING TO WRITE WITH, AND A TIMING DEVICE, SUCH AS A PHONE OR STOPWATCH.

**STEP 1: Go outside and find a plant. Draw a picture of that plant here.**

**Hint: A flower would work best.**

**STEP 2: document the weather by circling all that apply. Weather could impact the pollinators you see.**

**Hint: You will probably see more pollinators on warmer days.**

Fall

Winter

Spring

Summer

Cold

Mild

Hot

Rainy

Cloudy

Sunny

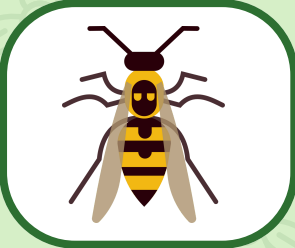

**STEP 3: Set a timer for 3 minutes. Watch the plant you selected until the timer runs out. Make a tick mark every time you see one of the below pollinators.**

Bee

Wasp

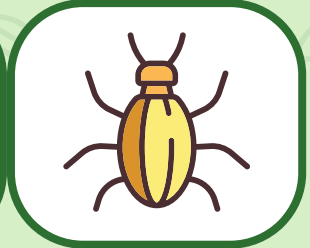

Butterfly

Fly

Beetle

**STEP 4: Think about your results. Answer the questions below.**

Do you think you saw a lot of pollinators? \_\_\_\_\_

\_\_\_\_\_

Why do you think the spot you chose was a good or bad place for pollinators to visit?

\_\_\_\_\_

\_\_\_\_\_

What could you do to improve the habitat around you for pollinators?
